

Year 2 Habitat Hunters Information Sheet

During this unit we aim to cover the following Science National Curriculum objectives ...

- identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals, and how they depend on each other
- identify and name a variety of animals in their habitats, including microhabitats

Outline of the session

- Brief welcome and introduction to the Nature Centre
- Discuss key questions with the class or in pairs, e.g. what is a habitat? What makes up our habitat? What other habitats do they know? How are animal habitats different to ours?
- Children investigate either 3 different habitats at the Nature Centre (pond, wooded area and hedgerow) or 3 different habitats on the Common (wild grass, wooded area, short grass). The pond is only available from April – July.
- Record the features of each habitat and investigate/name the invertebrates that live there.
- Share findings and discuss why the habitats are suited to the invertebrates they found there.

Session times

Education sessions run at the Nature Centre on **Fridays** from March to October, (this unit starts in April). Morning timings are 9.30am – 12.00pm and afternoon sessions run from 12.30pm – 3.00pm.

Prices

You can choose either a NatureScope or School led session for a class of up to 30 children.

NatureScope led - £150 per session

These sessions are fully organised by NatureScope, and will be led by a qualified teacher. Planning and preparation for the sessions is arranged by NatureScope and on the day of the visit, the teacher will meet and greet the children and lead the learning. School staff / helpers will be directed to work with small groups of their children on pre-prepared activities.

School led - £90 per session

These sessions are run entirely by the school staff using plans provided by NatureScope. Schools will be able to use the resources and facilities at the Nature Centre but will be responsible for leading the learning, setting up the activities and clearing away at the end of the morning. A pre visit by the teacher in charge to talk through the plans and equipment is a prerequisite.

Health and Safety

NatureScope follows strict safeguarding procedures, when working with children and vulnerable adults. All our staff and volunteers have enhanced DBS checks. Should you book a session we will send you a copy of our Risk Assessment. School groups are required to bring their own first aider.

Location and transport

The Nature Centre is nestled in the heart of Wandsworth Common between the Skylark Cafe and the tennis courts. It is a short walk from Wandsworth Common Station in the south, or from many bus stops to the east and west of the common. Bus 319 runs along Bolingbroke Grove and Bus 219 runs along Trinity Road
